Earth Day 2014: "Give Em Fin" Around the World

What? Give Em Fin Around the World!
 When? Earth Day Week
 Who? You & Your Friends!
 Where? Anywhere on Earth and Beyond
 Why? Host an Event AND Help Sharks
 How? See Link Below for Details

Join us. Pick any day between April 11 and April 21 to host a Give Em Fin event. Your event can host 4 people or 400. It can be as small a venue as a backyard bar-b-que with friends or as elaborate as showcasing a booth in one of the many Earth Day festivals that will be held worldwide. The important this is that you share the message that shark finning is unsustainable and will hurt us all. Call our office with any questions 310 458 1020 or send an e-mail to GiveEmFin@SeaSave.org

To learn more about hosting an event, [visit the mosaic](#) or download our ["How To Host An Event" Playbook](#).

"It's Your Ocean, Do Something About it."

Support CITES | Protect Sharks & Mantas | Sign & Share Petition!

Last March, Sea Save Foundation representatives attended CITES (Conference of the Parties for International Trade of Endangered Species). While there, we made history! Five marine species were placed on Appendix II. This meant that while these animals can still be caught and traded internationally, the activity will be monitored, and data can be collected, so we can make informed decisions in the future.

Now, five countries are ignoring the voice of the international community. Japan, Yemen, Guyana, Denmark and Iceland are undermining the power of this conference.

The have filed reservations stating that they will be doing business as usual and ignoring CITES.

Please help us send a clear message! These countries cannot be allowed to undermine the health of our oceans and the importance of this treaty.

Please **sign and share** our [petition](#) today!

Sea Save is going to ADEX Asia Dive Expo (April 11-13)!

Sea Save Foundation will be making their first appearance at ADEX - Asia Dive Expo, this April, in Singapore! Thanks to the kind support of ADEX organizers Cassandra Ann Dragon and Michael Aw, show attendees will have the opportunity to add their image to our 20,000 image strong mosaic!

This event draws about 38,000 visitors each year! So we hope to take a "bite" out of the mosaic.

If you live near Singapore, and can help us prepare for this event, or if you can help us at our booth during the event, please send us an e-mail at whale@seasave.org.

Michael Sutton Migrates from Advisor to Board Member

Sea Save Foundation is very proud to announce that Michael Sutton has joined our [Board of Directors](#). Michael will bring his rich history of championing successful conservation efforts and his background as a conservation attorney to Sea Save Foundation.

Michael currently serves as President of the California Fish and Game Commission and Vice President for the Pacific Flyway with the National Audubon Society. Previously, he founded and directed the Center for the Future of the Oceans at the Monterey Bay Aquarium, and served as a program officer in the Conservation & Science Program at the David and Lucile Packard Foundation.

Prior to that, Sutton served as Vice President at the World Wildlife Fund where he led WWF's global ocean conservation programs and founded the Marine Stewardship Council. He is also an author and lecturer in marine conservation law and policy on the summer faculty at the Vermont Law School. In his spare time, Michael explores West Coast skies in his Cessna Centurion. Mike's passion for conservation is tireless and Sea Save Foundation is fortunate to have him as our newest board member.

Cocos Island Expedition Space Still Available

Are you an adventurer? Do you love the ocean? Has swimming with dolphins, diving, walls of hammerheads, manta rays and whale sharks always been a dream of yours? Make that dream a reality. Join the Sea Save Foundation 2015 Cocos Island Expedition. Cocos Island and its clear blue waters and bustling ecosystem is a true paradise where tiger sharks, white-tips, silver tips, black tips, galapagos and whale sharks are frequently seen.

Let Sea Save help you orchestrate the trip of a lifetime. Sea Save Foundation has put together a world-class trip featuring the Argo, the most luxurious diving vessel visiting Cocos Island today. Be pampered while diving one of the most remote, exciting and adrenaline-filled destinations in the world.
